Nickel Plated Steel Strings are made from a special alloy. Our steel wire is refined with a thin layer of pure nickel. This surface gives you the smooth playing feel, and the steel guarantees perfect magnetic tone response. The combination makes the nickel plated steels extremely brilliant and tough, with perfect sustain and long-lasting. Just right for sound-conscious rockers and heavy metal players.

Pyramid's "New Rock Standard" strings sets are the amazing result of much experimentation with a very musical custom alloy that we felt players would really embrace.

They sound feel and play like no other string currently available today. Adding to the new recipe an unbelievable durability, these sets go from clean and sweet to powerfully loud being highly responsive to pick attack.

Pyramid's "New Rock Standard" strings further the art of modern string making with this exciting new formula designed by Dean Farley.

A New
MILESTONE
in the Art of
STRING MAKING

Nofretete

Nickel-plated steel roundwound on hexagonal steel core, gold-colored, with protective coating

Gold

Item	Description	E	B	G	D	A	E	Price
NOF10	Nofretete X	.010	.013	.017	.026	.036	.046	14.75 €
NOF11	Nofretete XI	.011	.014	.018	.028	.038	.048	14.84 €

For the ancient Egyptians, gold was the crystallizing sunlight – a sacred, indestructible material of the gods. Our superior-quality gold strings aren't indestructible, but they're close. They are extremely resistant and durable.

They owe this to our complex manufacturing process. The strings are made of silver-plated nickel wire. With subsequent cryogenic processing the strings attain a brilliant gold-like appearance. Simply exquisite. Finally, we apply a thin, transparent layer to the Nofretete strings. They are protected from corrosion, do not scratch, impress with their silky fine brilliance, full sound, exceptionally smooth feel and are incredibly durable.

Roundwound

Round core strings must be wound with special care, with selected materials and certain techniques to get the desired sound results. The high-quality nickel wire which is used with these strings has a purity of 99.2%. Both, the material and the skilled production technique are responsible for the unequalled tone of these strings: A silky, silver-shimmering tone with unbelievable sustain. Certainly nothing for metal rockers but for tone hunters, instrumental music lovers, regardless of "clean" or "crunch".

Studio Masters Nickel Classics, same construction as the Nickel Classics. Here we hand polish the wound strings to reduce the finger noise and are perfectly for studio recordings.

* Important:

Please do not shorten (cut) the wound strings to the desired length, because the nickel wrap wire will get loose! The string will immediately go "dead"! At first make a sharp bend into the string, which will fix the nickel wrap wire. Then cut the string behind this bend to the desired length.

Our new "Fusion Flats series" was developed together with Dean Farley, the well-known and influential American guitar string designer. Farley envisioned a new type of flatwire string that would offer the player new musical perspectives with its tonal versatility and range. With us as a partner, he was able to realize his vision.

The new "Fusion Flats" are true musical chameleons that are simply unbeatable in terms of dynamics and versatility. Whether jazz, rock, country or blues – these strings compete at the highest level and they are a real enrichment for every musician.

Fusion Flats – the chameleon among flatwound strings. Whether it's jazz, rock, country or blues, they are absolutely outstanding with their musical flexibility and top dynamics.

Custom-Shop

We make your custom-made picks. Let us have your logo or company name or whatever you want to show on your guitar pick, we will do the rest. Please ask for details.

Colors of celluloid picks:

Pearl-white, pearl-red, pearl-grey, pearl-blue, tortoise-shell, solid black, solid white, solid red, solid yellow, solid blue, solid pink

Colors of imprint-foil:

We hot-stamp with special foil in gold, Silver, black, white, red, blue.

This we need from you:

Send us with email a jpg. in black/white color.

The hot-stamp costs would be once Euro 35.00.

PYRAMID Professional Picks. We manufacture them with a fine tradition and committed to detail. The finest celluloid is carefully sanded and polished by expert hands.

A Family Company through the ages

The history of PYRAMID string and tuning pipe manufacture

Foundation – A. Osmanek Musikinstrumenten- und Saitenfabrik was established in Schönbach, near Eger, in the former Austro-Hungarian Empire.

Anton Osmanek ran a weaving mill with 300 hand weavers. Due to the rapid increase in mechanisation, the hand weaving business was set to become extinct, so he changed to trading with musical instruments. Alongside the trade of musical instruments and accessories, he developed specialised silk based E strings, “the fifth”, for violins. Products which were of the highest quality and received numerous awards and certificates of merit over the subsequent years at various exhibitions and fairs.

The 1st World War then brought a sudden end to the successful business of exporting to the eastern countries and overseas markets. The successor – Karl Junger began to reorganise the company following the difficult times. He focused on the manufacture of strings for musical instruments.

The 2nd World War brought about the closure of the company as a non-vital industry. Following the end of the war the company was moved, under difficult circumstances, to Bubenreuth near Erlangen in Bavaria, Germany.

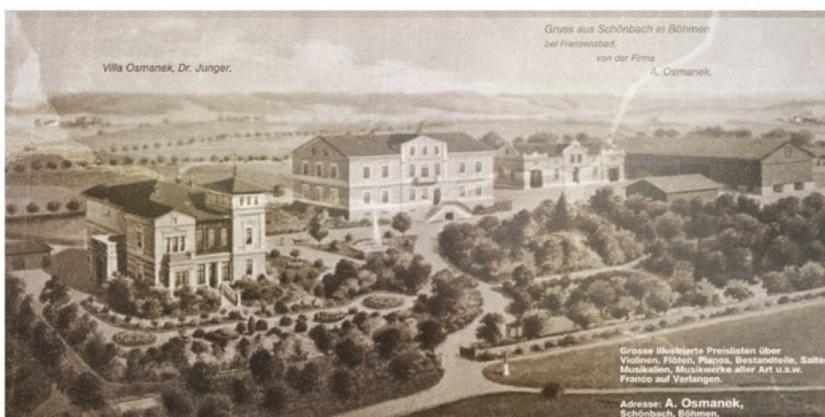

Restart in Bubenreuth 1948 in a barrack, then the 1st new factory building on the company's own ground about 1952/53.

2nd and 3rd building phases followed later in 1956.

The Challenge of rebuilding the company was undertaken by Karl and Norbert Junger. Their endeavours were supported well by the loyalty of countless domestic and overseas customers. Under the name of Karl Junger

Saitenfabrik the company expanded rapidly and during this period the tuning pipe manufacturer, Leopold Müller from Schönbach, was incorporated into the business.

PYRAMID today is recognised the world over for good quality and excellent service, exports to over 100 countries across the globe and is under the management of Max Junger.

Where does the name PYRAMID come from ?

Pyramid was developed from the former name used on the string packaging and subsequently became the registered Trademark PYRAMID for all our products. The graphic and word PYRAMID is a patented registered trademark in Germany and across the world. Patent Registration No. 613826/27.

Terms

Prices

Quoted ex factory in EURO. Consular fees will be charged to the buyer. An extra 100% is charged for strings of non-standard tunings or non-standard vibrating lengths. Strings not on this list can be custom-made at prices quoted upon request.

Delivery

Delivery dates are indicated to the best of our judgement, but without any obligation on our part. Unforeseen extraordinary events and influences beyond our control may cause delays and justify postponements in accordance with our possibilities.

Payment

Irrevocable letter of credit, cash against documents or in advance after receipt of our

Proforma-Invoice by sending us a cheque in EURO drawn on a German bank, remittance or by international money order.

References are requested, with the first order, of firms not yet known to us. The prices in this catalogue supersede all prices quoted previously.

Retention of title

We shall retain the title to the furnished goods until the payment in full of the amount of our invoice and of the other out-standing debits.

The place of performance and jurisdiction

is Erlangen/Germany for both parties.
